It is for people with both Medicare and Medicaid. A Medicare-Medicaid Plan is an organization made up of doctors, hospitals, pharmacies, providers of long-term services and supports, and other providers. It also has Service Coordinators to help you manage all your providers and services. They all work together to provide the care you need.
What is a UnitedHealthcare Connected Service Coordinator?	A UnitedHealthcare Connected Service Coordinator is one main person for you to contact. This person helps manage all your providers and services and makes sure you get what you need.
What are long-term services and supports?	Long-term services and supports are help for people who need assistance to do everyday tasks like taking a bath, getting dressed, making food, and taking medicine. Will I get the same Medicare and Texas Medicaid benefits in UnitedHealthcare Connected that I get now?	<p>You will get your covered Medicare and Texas Medicaid benefits directly from UnitedHealthcare Connected. You will work with a team of providers who will help determine what services will best meet your needs. This means that some of the services you get now may change. You will get almost all of your covered Medicare and Texas Medicaid benefits directly from UnitedHealthcare Connected, but you may get some benefits the same way you do now, outside of the plan.</p> <p>When you enroll in UnitedHealthcare Connected, you and your service coordination team will work together to develop a Plan of Care to address your health and support needs. During this time, you can keep using your doctors and getting your current services for 90 days, or until your Plan of Care is complete. When you join our plan, if you are taking any Medicare Part D prescription drugs that UnitedHealthcare Connected does not normally cover, you can get a temporary supply. We will help you get another drug or get an exception for UnitedHealthcare Connected to cover your drug, if medically necessary.</p>
