

SPRING 2020 | ¡VOLTEE PARA ESPAÑOL!

We speak your language.

We provide free services to help you communicate with us. We can send you information in languages other than English or in large print. You can ask for an interpreter. To ask for help, please call Member Services toll-free at 1-800-992-9940, TTY 711.

Going home.

Have you been in the hospital or emergency room (ER)? If so, it is important to receive follow-up instructions before you go home. Make sure you understand what is being asked of you. Ask questions if you do not. You can have someone you trust listen to the instructions so they also understand what you are supposed to do.

Make an appointment with your doctor as soon as you get home from the hospital. Bring your follow-up instructions and medications with you and share them with your doctor. Proper follow-up may prevent another visit to the hospital or ER.

Your partner in health.

How to choose the right PCP.

Your primary care provider (PCP) provides or coordinates your health care. You should see your PCP for well visits, immunizations and important screenings. Your PCP can help you lead a heathier lifestyle by providing tools to help you lose weight or quit smoking.

You want to feel comfortable talking with your PCP. You need a PCP with an office location and hours that work for you. You may want a PCP who speaks your language or understands your culture. You might prefer a male or a female PCP.

Teens have different health care needs than children. It may be time for your teen to switch to a doctor who treats adults. Your daughter may need a woman's health provider such as an OB/GYN.

If your PCP isn't right for you, you can switch at any time. You can learn more about plan providers online or by phone. Information available includes:

- Address and phone number.
- Qualifications.
- Specialty.
- Board certification.
- Languages they speak.
- Medical school or residency (by phone only).

Need a new doctor? To find a new PCP, visit **myuhc.com/CommunityPlan**. Or call us toll-free at **1-800-992-9940**, **TTY 711**.

By the book.

Have you read your Member Handbook? It is a great source of information. It tells you how to use your plan. It explains:

- Your member rights and responsibilities.
- The benefits and services you have.
- The benefits and services you don't have (exclusions).
- What costs you may have for health care.
- How to find out about network providers.
- How your prescription drug benefits work.
- What to do if you need care when you are out of town.
- When and how you can get care from an out-of-network provider.
- Where, when and how to get primary, after-hours, behavioral health, specialty, hospital and emergency care.

- Our privacy policy.
- What to do if you get a bill.
- How to voice a complaint or appeal a coverage decision.
- How to ask for an interpreter or get other help with language or translation.
- How the plan decides if new treatments or technologies are covered.
- How to report fraud and abuse.

Get it all. You can read the Member Handbook online at myuhc.com/CommunityPlan. Or call Member Services toll-free at 1-800-992-9940, TTY 711, to request a free copy of the handbook.

Know your drug benefits.

Visit our website at **myuhc.com/CommunityPlan** to learn about your prescription drug benefits. It includes information on:

- **1. What drugs are covered.** There is a list of covered drugs. You may need to use a generic drug in place of a brandname drug.
- 2. Where to get your prescriptions filled. You can find a pharmacy near you that accepts your plan. You may also be able to get certain drugs by mail.
- **3. Rules that may apply.** Some drugs may only be covered in certain cases. For example, you might need to try a different drug first. (This is called step therapy.) Or you might need approval from UnitedHealthcare to use a drug. (This is called prior authorization.) There may also be limits to the amount you can get of certain drugs.
- **4. Any costs to you.** You do not have copayments for prescriptions.

Look it up. Find information on your drug benefits at

myuhc.com/CommunityPlan. Or, call Member Services toll-free at 1-800-992-9940, TTY 711.

The right care.

How we decide which services are covered.

UnitedHealthcare Community Plan does utilization management (UM). All managed care health plans do. It's how we make sure our members are getting the right care at the right time and in the right place.

A doctor reviews requests when care may not meet guidelines. Decisions are based on care and service as well as your benefits. We do not reward doctors or staff for denying services. We do not pay anyone for providing less care.

Members and doctors have the right to appeal denials. The denial letter will tell you how to appeal.

Questions? You can talk to our staff. They are available 8 hours a day during normal business hours. If you need to leave a message, someone will call you back. TDD/TTY services and language assistance are available if you need them. Just call 1-800-992-9940, TTY 711, toll-free.

We care for you.

Voluntary programs to help manage your health.

UnitedHealthcare Community Plan provides programs and services to help keep you well. We also have services to help better manage illnesses and other care needs. These are part of our Population Health program. They can include:

- Health education and reminders.
- Maternity support and education.
- Support for substance use disorders.
- Programs to help you with complex health needs (care managers work with your doctor and other outside agencies).

These programs are voluntary. They are offered at no cost to you. You can choose to stop any program at any time.

Take care. Visit myuhc. com/CommunityPlan to find more information about network doctors. You can also learn more about the benefits, programs and services offered to you. If you want to make a referral to our case management program, call Member Services toll-free at 1-800-992-9940, TTY 711.

Safe and secure.

We take your privacy seriously. We are very careful with your family's protected health information (PHI). We also guard your financial information (FI). We use PHI and FI to run our business. It helps us provide products, services and information to you.

We protect oral, written and electronic PHI and FI. We have rules that tell us how we can keep PHI and FI safe. We don't want PHI or FI to get lost or destroyed. We want to make sure no one misuses it. We use it carefully. We have policies that explain:

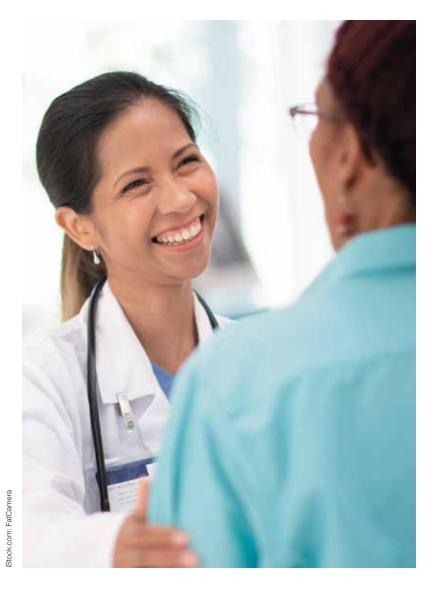

- How we may use PHI and FI.
- When we may share PHI and FI with others.
- What rights you have to your family's PHI and FI.

It's no secret. You may read our privacy policy in your Member Handbook. It's online at

myuhc.com/CommunityPlan. You may also call Member Services toll-free at 1-800-992-9940, TTY 711, to ask us to mail you a copy. If we make changes to the policy, we will mail you a notice.

Take charge.

Prepare to see your provider.

Preparing for your provider's visit can help you get the most out of it. So can making sure your provider knows about all the care you receive. Here's how you can take charge of your health care:

- Think about what you want to get out of the visit **before you go.** Try to focus on the top 3 things you need help with.
- Tell your provider about any drugs or vitamins you take on a regular basis. Bring a written list. Or bring the medicine itself with you.
- Tell your provider about other providers you may be seeing. Include behavioral health providers. Mention any medications or treatment they have prescribed for you. Also bring copies of results of any tests you have had.

Health equity.

We receive cultural data about you. This may include your race, ethnicity and the language you speak. We use this information to help us meet your health care needs. We may use it to improve the services we provide by:

- Finding gaps in care.
- Helping you in other languages.
- Creating programs that meet your needs.
- Telling your health care providers what language you speak.

We do not use this data to deny coverage or limit benefits. We protect this information. We limit who can see your cultural data. We keep your race, ethnicity and language data safe and secure. Only those who need to use this data have access to it. We guard it using physical, technical and administrative means.

Top quality.

Our quality improvement results.

UnitedHealthcare Community Plan has a Quality Improvement program. It works to give members better care and services.

Each year we report how well we are doing. Last year, one of our goals was for more of our adult members who have diabetes to get their HbA1c blood tests and retinal eve scans. We sent members information and reminders about how important it is to see their doctor regularly to help manage their diabetes. We found that overall in 2019 more members did have their HbA1c blood tests and eve exams.

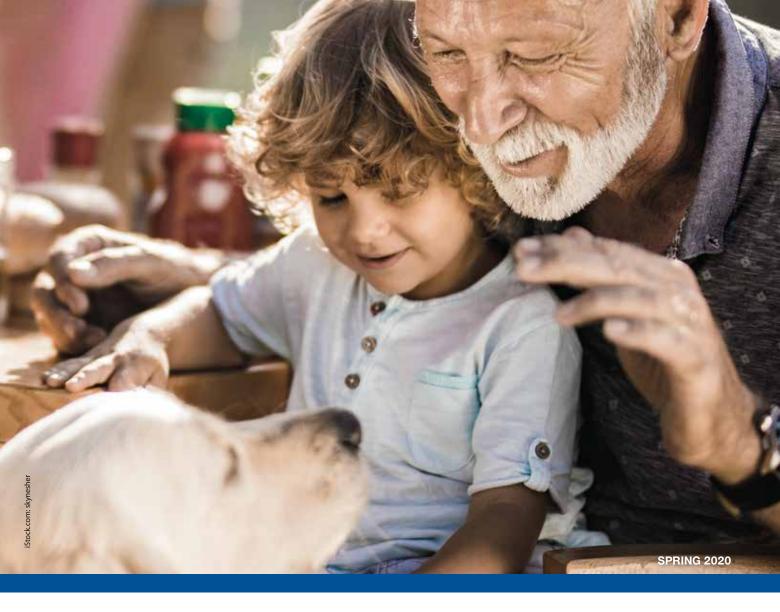

Last year, another goal was to increase the number of children who received vearly checkups. We want to improve even more this year and have more children get lead screenings, vaccinations and yearly checkups. We also want to improve the percentage of members who have cervical cancer and breast cancer screenings in the coming year. We will be calling members with reminders.

We also survey our members each year. We want to see how well we are meeting their needs. Our 2019 surveys showed mostly higher scores in how members rated their doctors. In the coming year, we will continue to work on improving how members rate their doctors and their overall health care. We also want to make sure members get the care they need when they need it. We gave our doctors tip sheets on what members like so they can better serve them.

Quality matters. Want more information on our Quality Improvement program? Call Member Services toll-free at 1-800-992-9940, TTY 711.

Where to recertify.

Regional Medicaid Offices.

Oficinas regionales de Medicaid.

Questions about Mississippi CHIP? Ask your county's Regional Office. You can call or visit. Can't get to a Regional Office? Go to your local Outstation. Your Regional Office can tell you where it is. ¿Tiene preguntas acerca de Mississippi CHIP? Pregunte en la Oficina regional de su condado. Puede llamar o ir personalmente. ¿No puede ir a una Oficina regional? Vaya a su subestación local. En su Oficina regional le pueden decir dónde se encuentra ubicada.

Check it off.

Think about these topics before your next visit:

Take this checkup checklist to your next appointment.

You and your children should have regular checkups with your primary care provider (PCP). Preparing for a checkup helps you get the most out of your visit.

	Family history. Have any		
	of your relatives been		
	diagnosed with diseases		
	since your last visit?		
	Screenings. Ask your PCP		
	if you are due for any tests		
	or screenings.		
	Immunizations. Ask your		
	PCP if you or your children		
	are due for any shots.		
	any health changes since		
_	your last visit.		
Ш	Goals. Make a list of health		
	goals, such as losing weight,		
	getting pregnant or quitting		
	smoking.		
It's	s also important to be screened for diseases. Screenings help catch		
	nditions early.		
П	Breast cancer. Depending on risk, annual mammograms begin for women as early as age 40 or as late as age 45.		
_			
	Then mammograms every 2 years beginning at age 55.		
	Cervical cancer. Pap screening every 3 years for women ages 21		
	to 29. Pap and HPV tests every 5 years for women ages 30 to 65.		
	Colorectal cancer. Colonoscopy every 10 years for men and women beginning at age 45. Other tests are available;		
	intervals vary.		

Haga una lista.

Lleve esta lista de verificación a su próxima cita.

Tanto usted como sus hijos deben acudir a controles periódicos con su proveedor de atención primaria (PCP). Prepararse para un control le ayudará a sacar el máximo provecho de esta visita.
